

## Muli Pro-PE K parallel

### Product information for the product group

#### ACO Product benefits

- Large usable tank volume
- 8 inlets, 4 inlet heights
- High level of operational safety thanks to pilot tube and air bubble injection
- Energy-saving channel impeller
- Designed to fit through narrow doorways: 780 mm

#### ■ Areas of application

- Commercial or industrial units with high level of wastewater
- Where there are long discharge pressure lines with a large difference in height
- Polyethylene tank
- With drain plug
- With connection for hand membrane pump 1½"
- With fixing kit for operationally secure attachment
- With 6 horizontal intake nozzles DN 150

#### ■ With 2 vertical intake nozzle DN 150

- With 2 service openings, clear width: 320 mm
- With ventilation sockets DN 100 to connect to plastic tube
- Connection pressure line
  - With 2 special backflow stops DN 80 (DN 100 on MULI Pro-PE K-75 duo) with venting device
  - With Y-branch
  - With special mounting adapter DN 100 for connection of 108 – 114.3 mm pipe external diameter pressure line
- 2 pump motors

#### □ Three phase motor 400 V, 50 Hz

- IP 68 protection
- With axle and rotating mechanical seal
- With channel impeller
- Pneumatic level switching with pilot tube and pneumatic control line
- Mini compressor for air bubble injection
- Switch and alarm device
  - IP 54 protection
  - With 1.5 m cable and EEC plug
  - With volt free centralised fault and operational warnings
  - Incl. 7 m cable between lift and switch box.

### Item Technical Data 0175.13.26

Type	Motor power		Key data			Granulation	Usable volume				Total volume	Weight
